

## OPERATORS FEAR DEADLOCK OVER WILSON PROPOSAL

Increases For Diggers and Laborers Unsatisfactory to Employers.

### CONFERENCE ON TODAY

Failure to Agree is Forecast by Thomas Brewster, Chairman of the Operators' Committee, When Joint Scale Board Meets to Discuss the Plan.

By Associated Press.  
WASHINGTON, Nov. 22.—A deadlock between the soft coal operators and miners in the central competitive district was forecast by Thomas Brewster, chairman of the operators' committee, when the joint scale committee met to discuss increased wage proposals made yesterday by Secretary Wilson.

Brewster said Wilson's proposals of a wage advance of 27.12 cents per ton for diggers and \$1.50 a day for day laborers was wholly unsatisfactory to the operators. He added that other operators said the increase would amount approximately to 40 per cent for machine miners, of the same as that proposed by the miners yesterday after their president, John L. Lewis, had conferred with the labor secretary. A definite statement that Mr. Wilson's figures will not be accepted as a basis for further negotiations was expected from the operators during the day.

"There are only a few more words to say," said Brewster, "and they will be said very soon."

After the scale committee adjourned the operators would make a formal statement but some said privately they would go into session late today with the miners with a definite policy.

### RAILROADS FORBIDDEN TO DELIVER COAL TO NON-ESSENTIAL PLANTS

Only Necessary Industries Within First Five Priorities Will Get Supply.

Orders issued yesterday prohibited the delivery of coal to any but essential industries listed in the first five priorities in the Connellsville district. The following statement has been authorized by L. W. Baldwin, Regional Director of the Allegheny Region.

"In view of the extended period of reduction in the amount of bituminous coal produced, orders have been issued Friday prohibiting the granting of permits for coal for industries not listed in the first five priorities of the United States Fuel Administration. It is essential that the amount of coal at present on hand and that now being mined be conserved with the utmost care. To this end permits will only be granted for coal for industries within the confines of the first five priorities and then only when through proper investigation it has been ascertained that such coal is vitally needed."

These priority classifications are:

- (A) Railroads and bunkering for inland coastwise vessels.
- (B) Army and Navy together with other departments of the Federal Government.
- (C) State and county departments and institutions.
- (D) Public utilities.
- (E) Retail dealers.

"In order to meet the urgent demands for bituminous coal in the Central Western, Northwestern and Southwestern regions, orders have also been issued to divert westbound over the lines of the Baltimore & Ohio and the Pennsylvania railroads, some of the coal mined in the eastern section of the Allegheny Region for distribution under the first priority classifications.

"For the present, no reduction in passenger train service is contemplated and every effort will be made to keep in operation the schedules now in effect on the railroads throughout the Allegheny region."

Veteran Physician Dies at Home of Sister, Mrs. S. S. Stahl, Friday Night.

Newcomer, 74 years old, a veteran physician of Fayette county, and a soldier in the Civil War, died Friday evening at 5:35 o'clock in the home of his brother-in-law and sister, Dr. and Mrs. S. S. Stahl, South Pittsburgh street. Dr. Newcomer's death was not unexpected, his illness dating back to last January. Soon after he was taken ill he was removed to the Cottage State hospital, receiving medical treatment at the institution for several weeks. His condition becoming more alarming in June he was taken in a special train to a sanitarium at Battle Creek, Mich., in hopes of regaining his health.

A while he was apparently benefited by the treatment received there. However, following an examination made by the physicians at the sanitarium, it was discovered that his condition was very critical and that he could not recover. Accompanied by his sister, Mrs. S. S. Stahl and Dr. A. J. Colborn, the patient returned to Connellsville and was removed to his apartments in North Pittsburgh street, remaining there until about eight weeks ago when he was taken to the Stahl residence. The deceased became unconscious yesterday morning about 5 o'clock and died in that state.

Dr. Newcomer was a member of one of the pioneer families of Fayette county and in his death Connellsville has lost one of its most substantial citizens. In politics he was a Republican. The deceased was a Knight Templar, a member of the Christian church of this city and of Connellsville Lodge of Elks.

J. W. Burger Charges Charles H. Rose With Larceny; Cross Suit Ramored.

As the outgrowth of the troubles between J. W. Burger and Charles H. Rose over ownership of coal at Rogers Mill, in the Indian Creek valley, Rose is under bail for a hearing before Alderman J. J. Michael of Uniontown on a charge of the larceny of coal claimed by Burger. The case was to have been tried before the alderman today but was continued until next Wednesday, November 25.

Rose and others interested in the case were in town this morning and it was said counter charges were to be filed. It was said members of both factions boarded trolley cars for Uniontown.

Attorney Chad L. John of Uniontown is counsel for Burger and Attorney A. E. Jones, also of the county seat, for Rose.

It was trouble over the mine that is said to have resulted in an exchange of shots Wednesday night between members of the 72nd zone at Rogers Mill and a fist encounter yesterday morning.

The Burgers and the Roses have been in litigation for years. At one time costs to assault and battery suits and counter suits before Connellsville aldermen amounted to \$300, but before the time for the court sessions they were withdrawn.

So far as could be learned no actions growing out of the trouble of Wednesday and Thursday had been filed.

### OHIO MAN GETS OFF TRAIN, THEN STEPS IN FRONT OF IT; KILLED

Stopping in front of Baltimore and Ohio train No. 43, from which he alighted at Ohlyville this morning, Clarence Potter, about 60 years old, of Rudolph, O., was instantly killed. Mr. Potter was born and reared in the neighborhood of Ohlyville, a son of Mr. and Mrs. George Potter. When a young man he left Fayette county and for the past 20 years had resided in Ohio, where he is an oil producer and owner of extensive real estate holdings. ### TO CONTROL FOOD

Attorney General Palmer Takes Over Hoover's Powers.

WASHINGTON, Nov. 22.—President Wilson has transferred to Attorney General A. Mitchell Palmer the food control powers which under the wartime Lever act were exercised by the Food Administration headed by Herbert Hoover. This step marks the inauguration of a new intensive campaign by the government against high cost of living.

The "nationalization" places all the Hoover powers in the Attorney General's hands with the exception of the authority conferred by those sections of the Lever law which make possible a guaranteed price of wheat. Those powers remain vested in the grain corporation.

The executive's action places in the Department of Justice power to regulate prices, act against hoarding, combat profiteering, and to license the manufacture and distribution of any necessities of life.

The direction in which the Food Administration power first will be exerted by the Attorney General will be in settling the controversy as to sugar prices.

### VICTIM OF STABBING DECEYED FROM HOME AND PROBABLY ROBBED

Officers Hear Cumberland Man Murdred at Scotland Had Large Sum on Person.

SCOTSDALE, Nov. 21.—That he had been deceived from his home at Cumberland, Md., to Scotland, by a telegram, the nature of which has not been made public, and that he had a large sum of money on his person when he left home, are facts said to have been ascertained following the identification Friday at Ferguson's undertaking rooms of the body found recently in Jacob's creek at Kierulow as that of Fernando Ragonesse of Cumberland. When the body was found, with 15 stab wounds, there was but 79 cents in the man's pockets. Though valuable diamond jewelry remained on his person.

Identification was first established through a photograph of the body sent out by state police. The resemblance and the fact that Ragonesse had been missing for two weeks led the family to telephone Thursday evening to Funeral Director William Ferguson, Friday G. M. Fisher of Cumberland came to Scotland and verified the identification. He brought along a photograph taken last summer showing the jewelry found on the dead man.

Ragonesse was well to do. It was learned. He was employed as bookkeeper in a foreign bank at Cumberland. The body was sent to Cumberland yesterday afternoon.

## A way to do the Family Washing in 15 Minutes

Wouldn't you esteem it a blessing if you could have the toil and muss of the family washing all over within ten or fifteen minutes?

A dream? Not at all—for it can be done. Here is the recipe.

First ten minutes—Gather up the family washing and make a list of it.

Next four minutes—Wrap securely into a bundle.

Last minute—Telephone our Laundry.

Total time expenditure—Fifteen minutes.

Time saved—Ten to fifteen hours.

When our driver calls, he also gathers up the untidiness and drudgery of washday—and leaves for you, leisure for more womanly activities.

Meanwhile your washing is at our laundry being cleansed with thoroughness and a consummate care that no laundress can excel. There is no boiling or rubbing to fray fabrics and wear out clothes. We achieve cleanliness by gentle sousing and rinsing in clear, soft water and pure white suds. Your clothes are daintily finished, too, and returned to you sweet and spotless.

Reduce your washday to fifteen minutes by sending your family washing to us. A telephone call will bring our driver.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading  
Druggist of Covington, Ky., Who Has Made  
Special Study of Catarrh.

Says: Inflamed Nostrils  
Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of mentholated, astringent, and full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days. Ask for three-quarters of an ounce of Mentholated Astringent—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy. Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

# WEALTH IN TEXAS OIL!

## Would You Risk \$10 In An Oil Opportunity That Promises Bigger Returns for the Investment Than Anything Else You Can Buy?

### We Have Bought the Leases With Our Own Hard Cash

The group of men who comprise the officers and directors and have formed the Empire Texas Oil Company have bought five leases in four well defined gusher pools in Texas. We are not promoters nor speculators, but each is a well known business man, practically a life-long resident of his hometown and the kind of citizen you can always look up and find is O. K. at the bank.

### We Are Now Ready to Drill For the Oil and Its Wealth

To raise sufficient money to develop these five gusher leases, we have set aside a limited amount of our capital stock, which we now offer at a minimum of 100 shares for \$10.00. The money realized from the sale of these shares is bonafide working capital—money to be used for the purpose of drilling wells and developing the leases.

### The Shares You Buy Are An Equal Interest With Ours

Every share of stock that you purchase in this company is treasury stock, and every share of stock represents an equal interest in all the assets of this company. Thus you will more clearly understand why this is the greatest oil opportunity ever offered you, and why you stand to win big, not merely on the value of your stock but on the actual production of the oil itself.

### We Have No Bonds, No Mortgages, No Preferred Stock; All Shares Equal

Your shares are on the same equal basis as all other shares. We have put up our own cold cash in what we believe the biggest opportunity we have ever had to develop a real money-maker. None of the officers has received any remuneration for his services, although all are devoting their full time and energies to the business management of the company.

### Let Us Get Together at Once

Let us get together on these five big gusher leases at once. We should get at the oil without unnecessary delay, a fast and expensive undertaking. All our profits must come out of the ground. It is oil we are after, and if we strike it, we strike it rich; if not, we are out of luck. As against the thousands we have put into the company we solicit subscriptions of \$10, \$20 or up to a hundred dollars or more from those who are willing to risk the price of a new hat or a suit of clothes on the chance of making a stake, striking it rich. All the money from the sale of stock goes to drilling wells; no rugs, no furniture, no private offices nor fancy salaries. We want you to know all the facts.

### Money-Back Guarantee Is Our Pledge of Good Faith

There was never a more open and above-board enterprise offered.

We propose to make some real money in a fair and square way by getting the co-operation of a sufficient number of live-wires to produce oil. We have the oil land. And everyone knows that if oil is struck at all, it is big money. If we strike a gusher we all share in a fortune. If it is more than one gusher we are each of us rich over night. A host of men are rich today because they bought on the same basis that we now offer stock in this company.

Send for 100 shares at \$10; 200 shares, \$20; 500 shares, \$50; 1,000 shares, \$100—As many shares as your venture some spirit tells you is worth the risk.

If, within ten days after sending your receipt and prospectus of the company, you are not satisfied, if after the fullest and freest inquiry and investigation you have any doubt as to the genuineness of this undertaking, simply demand the return of your money and it will be sent to you without a word or quibble.

### Act Today!—Don't Wait!

The time to take advantage of an oil opportunity is during the initial period of development. When oil has been struck, when the wealth of the earth, it may be fabulous wealth, has been flowing every minute of each 24 hours, it is then too late to buy stock at a profit. So get your shares today before actual deep drilling begins.

Empire Texas Oil Co., Belmont, N. Y.

## COME IN WITH US ON THIS SQUARE DEAL

The biggest return ever made on money invested in oil has come to those who got in early in the Texas field. Here is an opportunity to share in the square deal development of five mighty valuable Texas oil leases that are located right in the heart of the gusher pools. These are properties that have been secured by acknowledged oil producing authorities, who personally picked out the locations.

## NOW READY FOR THE BIG DRILLING

### Remember This—GUSHER LEASES

We have five gusher leases in four defined pools—WAGGONER—DESDEMONA—RANGER and BURKBURNETT, in Texas.

You get into a reality at once; no speculation, no promotion; a genuine enterprise on our own land in four of the famous oil producing territories of Texas.

A limited amount of the capital stock is now offered to those who recognize that all the big enterprises, the famous money makers and wonderful dividend payers had their beginnings in just such cooperation as this. And the fact that you can participate in this splendid opportunity at such a small figure, should bring your subscription at once.

### What a National Bank President Says

W. J. Richardson, President of the Citizens National Bank, of Wellsville, N. Y., has this to say regarding the active head of this company. "Mr. Henry is a man of character and ability. He has had large experience in the oil business and has been very successful. I have been closely acquainted with Mr. Henry for a long time, and have always found him reliable in every business transaction. I recommend him as entitled to your fullest confidence." W. J. ## WHERE WE OWN LEASES!

The Empire Texas Oil Co. Owns 760 Acres of Undeveloped Leases in the Best Oil Producing Territory in Texas

### FIVE LEASES IN FOUR DEFINED GUSHER POOLS

The various oil pools of Texas were visited by the President of this company at the time of organization. He made a personal inspection. He went to Texas feeling that many of the oil stories about the quick acquiring of big fortunes were tremendously exaggerated.

He looked the oil fields over carefully. He personally ran down several of the stories regarding the millions that had been made in oil, and through personal first-hand information, backed by his extensive experience, he makes the statement that the splendid possibilities for making money in Texas fields where the leases of this company are located far exceed any other oil development that now exists in the country.

Here are our properties:

#### Waggoner Pool

We own one lease located in block 56 Red River Lands, Wichita county, closely surrounded by gushers doing 2,000 to 3,500 barrels daily.

#### Desdemona Pool

We own one lease Eastland County, west of Desdemona, J. M. Bishop land, near Lewis well, reported doing 4,000 barrels daily. Gushers on three sides.

We own one lease Erath County, east of Desdemona, R. L. Kirk land, near Comanche well, reported doing 5,000 barrels daily.

#### Ranger Pool

We own one lease Eastland County, 3 1/2 miles southeast of Ranger, one mile northeast of production.

#### Famous Shallow Pool

BURKBURNETT, WICHITA COUNTY.

We own one lease located 2 miles south of Burkburnett, in the heart of the shallow pool. Production within 400 feet on all four sides. Flye pay sands. Texoma Company reported to have brought in a 1,400 barrel well in fifth sand (1,250 feet), October 1st, 1913, three-quarters of a mile northeast of our lease.

We own other leases which, while less famous as yet, are far better prospects than the now known bonanzas were at the start of their development.

For the development of all lands money is necessary—oil land is nothing but land until the oil is brought to the surface, and it takes money to get it to the top.

And it is to secure money for this development work that we will put this land and producing territory that a limited amount of capital stock is now being sold on the basis of 10 cents per share, with minimum allotment of 100 shares, an investment of \$10.00 or more, to any one purchaser.

### Get Your Share of Oil Wealth

We offer you this opportunity to get a share of oil wealth. Some people think that because they can invest but little it is not worth while; but this is a mistake.

The New Oil Fields of Texas have possibly enriched more poor people than any other discovery of natural wealth in modern times, if not in the entire history of the world, because they have offered opportunities for the little man along with the big fellow, for the purchase of stocks at low prices. Recently the stockholders of the Fortuna Oil Company, in a short time made the following enormous profits: For each dollar invested, \$2,500; each ten dollars, \$25,000; and each one hundred dollars INVESTED, a QUARTER OF A MILLION DOLLARS.

## THE COW PUNCHER

By ROBERT J. C. STEAD  
 Author of  
 "The Elchener" and Other  
 Poems

Illustrations by IRWIN MYERS

The rising hall was a blaze of light. Dave, paused for a moment, waiting the beck of a waiter, but in that moment his eye fell on Conward, seated at a table with Mrs. Hardy and Irene. Conward had seen him and was motioning to him to join them. The situation was embarrassing, and yet Dave felt that he was glad he had dressed for dinner. He was glad to be there, for dinner, and during the small talk with which they whiled away an hour, his mind was reaching out, acutely, exploring every nook of possibility, to arrive if it could at some explanation of the sudden interest which Conward was displaying in the Hardy's. These explanations narrowed down to two almost equally impalpable: Conward was deliberately setting about to capture the friendship, perhaps the affection, of either Mrs. Hardy or Irene. Strangely enough, Eiden was more irritated by the former alternative than by the latter. Perhaps this attitude was due to subconscious recognition of the fact that he had much more to fear from Conward as a suitor for the hand of Mrs. Hardy than as a rival for that of Irene. Conward, as a prospective father-in-law, was a more serious menace to his peace of mind than Conward as a defeated rival.

The more he contemplated this aspect of the case the less he liked it. To Conward the affair could be nothing more than an adventure, but it would give him a position of a sort of semi-paternal authority over both Irene and Eiden.

When at length Mrs. Hardy began to show signs of weariness, Irene served coffee and cake, and the two men, taking that as an intimation that dinner was over, left.

"How did this happen—tonight?" he asked, with the calm assumption of one who has a right to know.

"Oh, Mr. Conward telephoned to invitation to mother," she explained. "I was so glad you happened in. You have had wonderful experiences. Mr. Conward is charming, isn't he?"

Dave did not know whether the compliment to Conward was a personal matter, concerning his partner or whether it was to be taken as a courtesy to the firm. In either case he rather resented it. He wondered what Irene would think of this "nobbling" business in the dead days of disillumination that must soon sweep down upon them. But Irene apparently did not miss his answer.

"We shall soon be settled," she said as Mrs. Hardy and Conward were seen approaching. "Then you will come and visit us?"

"I will—Bennie," he whispered, and he was sure the color that mounted to her cheeks held no tinge of displeasure.

CHAPTER X.

Eiden lost no time in making his first call upon the Hardys. Irene received him cordially, but Mrs. Hardy seemed to more warmth than propriety demanded. Eiden, however, allowed himself no annoyance over that. A very much greater grievance had been thrust upon his mind. Conward had preceded him and was already a guest of the Hardys.

Dave knew Conward well enough to know that purpose always lay behind his conduct, and during the small talk with which they whiled away an hour, his mind was reaching out, acutely, exploring every nook of possibility, to arrive if it could at some explanation of the sudden interest which Conward was displaying in the Hardy's. These explanations narrowed down to two almost equally impalpable: Conward was deliberately setting about to capture the friendship, perhaps the affection, of either Mrs. Hardy or Irene. Strangely enough, Eiden was more irritated by the former alternative than by the latter. Perhaps this attitude was due to subconscious recognition of the fact that he had much more to fear from Conward as a suitor for the hand of Mrs. Hardy than as a rival for that of Irene. Conward, as a prospective father-in-law, was a more serious menace to his peace of mind than Conward as a defeated rival.

## SQUEEZED TO DEATH

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking **GOLD MEDAL HAZLENU OIL CAPSULES**.

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Famous since 1896. Take regularly and keep in good health. In three sizes, all druggists. Guaranteed as represented. Look for the name Gold Medal on every box and accept no imitation.

their welcome had run down, but would reward itself if not too continually drawn upon, left the house together. On this way they agreed that it was a very delightful night.

Dave turned the situation over in his mind with some impatience. Irene had now been in the city for several weeks, and he had had opportunity for scarce a dozen personal words with her. Was he to be balked by such an insufferable chaperonage as it seemed the purpose of Mrs. Hardy and Conward to establish over his love affair? No. In the act of undressing he told himself, "No," sulking to the word such vigor of behavior that in the morning he found his shoes at opposite corners of the room.

Several days passed without any word from Irene, and he had almost made up his mind to attempt another telephone appointment, when he met her, quite accidentally, in the street. She had been shopping, she said. The duty of household purchases fell mainly upon her. Her mother rested in the afternoon.

"How about a cup of tea," said Dave. "And a thin sandwich? And a delicate morsel of cake? One can always count on thin sandwiches and delicate morsels of cake. Their function is purely a social one, having no relation to the physical requirements."

"I should be very glad," said Irene. They found a quiet tearoom. When they were seated Dave, without preliminaries, plunged into the subject nearest his heart.

"I have been wanting an opportunity to talk to you—wanting it for weeks," he said. "But it always seemed."

"Always seemed that you were thwarted," Irene completed, in the thought, "You didn't disguise your annoyance very well the other night."

"Do you blame me for being annoyed?"

"No. But I rather blame you for showing it. You see I was annoyed too."

"Then you had nothing to do with bringing about the situation that existed?"

## Buying a Roaster Requires Care

for upon it depends whether or not your turkey will be deliciously crisp and brown as to skin and tender and moist when the carving knife slides through the white meat or whether it will be dry and hard. Either an aluminum or a savory roaster with its self basting lid will guarantee the big bird to be all you could hope for. The extra handles along the sides and the extra vent in the lid of the aluminum roasters add just that much convenience to handling in the oven—convenience which the savory does not have.
